SUMMARY

Web Developer intern skilled in HTML, CSS, JavaScript, and React with a strong problem-solving mindset. Quick learner with a passion for creating responsive and user-friendly websites. Seeking an opportunity to apply and expand technical knowledge in a dynamic environment. Enthusiastic about coding, collaboration, and continuous learning.

PROJECTS

Tic Tac Toe Game - (<https://github.com/SanthoshGit23/TicTacToe>)

- Developed a Tic-Tac-Toe game using React.js with interactive UI and dynamic state management. Implemented component-based architecture for modularity and reusability. Integrated game logic, winner detection, and history tracking for an enhanced user experience. Utilized React Hooks for state handling and optimized performance. Showcased problem-solving, JavaScript proficiency, and front-end development skills in a practical project.

Password Generator - (<https://github.com/SanthoshGit23/Password-Generator>)

- Designed and developed a feature-rich password generator using HTML, CSS, and JavaScript, enabling secure, randomized password creation. Integrated customizable options for length, special characters, and real-time validation. Enhanced user experience with a responsive UI and copy-to-clipboard functionality. Improved JavaScript proficiency by implementing robust logic for security and efficiency.

Text to Speech Converter - (<https://github.com/SanthoshGit23/Text-to-Speech-Converter>)

- Created a dynamic Text-to-Speech Converter using HTML, CSS, and JavaScript, enabling seamless text conversion into speech. Integrated SpeechSynthesis API for multilingual support, user-friendly controls, and a responsive interface. Focused on accessibility, enhancing user interaction with smooth voice output and customizable speech options.
